Instruction of Patch20191105 for EagleRIP5150

Improvements:

1. Increased the output size from 2,000mm x 2,000mm to 2,100mm x 2,100mm.
2. Added 133lpi @ 5080dpi and 100/110/120lpi @ 2540dpi dots in FlexoRound Balance screening.
3. Improved the accuracy of cropping position and dimension in Ganging.
4. Support files with size larger than 4GB.
5. Fixed some other bugs.

Instruction to install:

1. Check up and make sure your EagleRIP version is 5150. If it is lower and you need the patch, please upgrade your EagleRIP system first.
2. Run EagleRIP_Patch20191105 to install the patch program into EagleRIP system.
3. Restart EagleRIP to take the patch effective.
