

## How to download PaSharp installation program of MAC version

1. If you download PaSharp installation of MAC version by internet browser from MAC computer, then there may have problem caused by Apple's new security policy when install PaSharp on MAC OS.

Please download PaSharp installation program from a PC computer with Windows OS, and it's better to use FTP client for example LeapFTP or FlashFXP etc., to download the installation, do not use Internet browser to download the installation.

or use "Connect to Server" method to download the installation program on MAC computer.

The phenomenon is as below:

(1) PaSharp installation reminds you that it is downloaded from the internet. (Only on MAC 10.12)

(2) Welcome message is empty or remind you that the license.txt cannot be found.
