

How to update timer dongle to normal or change Levels?

After receiving a PKG file, you can change timer dongle to a normal one, or change the dongle Levels. Please do as following.

Attention:

If you have installed EagleRIP on this computer, please UNPLUG (remove) the dongle of EagleRIP before upgrading EagleDot.

- 1. Extract the compressed file and copy them to a new folder.
- 2. Make sure the dongle of EagleDot/EagleProof is plugged in.
- 3. Make sure the program is closed.
- 4. Run ClientTool.exe, click "Query" button, pop up the next window:

🤨 User Update Tool		
Module Information in device:		
Module id Module version 050 4.0.0.6	Module status update	Query Q)
		Vpdate (U)
		Save (S)
		Close (C)
Device status information
